White Birch Peel Boards

These boards are ideal for all types of hard rolls and bagels and are highly resistant to discoloring or splintering even after prolonged periods of heavy commercial bakery use.

Each board is constructed from 1/16" veneers, bonded with a water and boil proof glue.

Final finishing includes sanding and rounding all corners for easy placement into standard bakery racks. Additional machining available such as eased edges and engraving.

Stock #	Quantity	Thickness	No. of Plies	Dimensions	Price:

Stir Stick/Paddle

Natural color, sanded wood. **Call for other sizes.**

ROY-WP-30 30" \$10.84/ea.

ROY-WP-42 42" \$15.74/ea.

Wood paddles should never be soaked in water. If necessary they can be seasoned or sealed with oil. To seal, wipe any food safe oil (like mineral oil) on the surface of the paddle. Some oils will eventually go rancid; these oils should be avoided. If sealed, the paddle is less likely to pick up unwanted odors, food particles and moisture.

- **Outlasts Competing peels 3:1**
- **Patented Design provides Maximum Durability**
- **Flush Rivets**
- **Hardwood Handles**
- **Custom Handle Lengths Available**

Aluminum Pizza Paddles/Peels

The first low-cost quality rivetless Bakers Peel made of a one piece metal blade—epoxied to an aluminum tube permanently attached to a hardwood handle. No rivets to break or metal to bend as other peels are known to do—this pizza peel is made to LAST.

Mr. Peel uses the highest-grade Domestic Basswood/Aspen Lumber important details integral to the comfortable handling and functional use of wood peel.

Some of the most important features regarding wood peels are highlighted below. These responses were collected by hundreds across the country.

- Handle Comfort: Mr. Peel has completely rounded the sides of our peels, creating the most comfortable handle available on wood peels.
- Glue Joint: Mr. Peel uses the latest radio frequency gluing process, maximizing the actual surface area contacted by the glue. This process ensures the strongest glue joints.
- Weight: Mr. Peel tapers our blade to a 1/4" dimension before the final taper. This process minimizes overall weight while enabling easy access to the product & maintaining handle strength.
- Finish: Mr. Peel sands our peels to a final finish of 120 Grit, ensuring a consistent, smooth finish.
- Lumber: Mr. Peel uses the highest-grade Domestic Basswood/Aspen.
- All Mr. Peel wood peels can be private labeled with your company name on the handle. (Call for quote).
- Wood peels are packed 6 per carton (exceptions made for larger sizes).
- Mr. Peel also inserts a hole for hanging in the handle of every peel.
- Mr. Peel guarantees the quality of products against major defects and workmanship.
- Never soak or place wood peels in dishwasher. Oil peels with standard kitchen oil (mineral oil) to preserve wood and to protect against unpleasant odors.
